

## An expert produced shortlist of high quality talent

Finding quick access to leading talent needs capacity, scale and focused control to ensure successful talent acquisition results.

Due to the current climate, online job adverts are generating huge responses. Our experience demonstrates 24 hours can generate over 250 candidate applications for certain roles after posting just 1 job online.

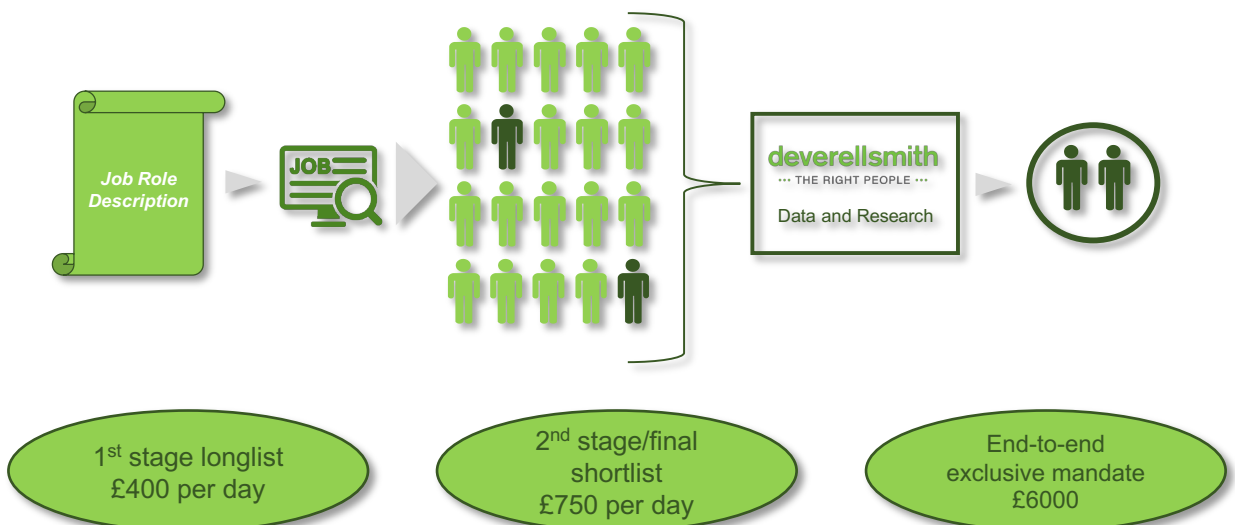

When additional roles and locations are added to the pipeline, the rate of traction and activity will only increase. 24 hours could generate 1000's of applications and if each application took 10 minutes to qualify, that would take a minimum of 100 working days to sift and shortlist.
